## Born to Shoot Wild

with John Gill, A.C.Ph.

<http://home.metrocast.net/~johngill/>

Wednesday, September 7, 2016

6 to 9 p.m. | Derryfield Country Club

Passion is the major prerequisite for nature photography, and John has been following this passion for over 20 years. Whether in his backyard or across

the country, John seeks to record and interpret wildness in an artistic manner.

He will share his approach to nature and what he feels are the most important skills and attitudes for a fulfilling experience in nature photography.

In the process he will discuss composition, competition prints, wildlife photography, print sales, and image publication.

During the 20 years that John has been a member of NHPPA, he has remained true to his calling in nature photography. Despite the harsh economic realities related to this area of photography, he has found ways to survive as a professional. He produces images for publication and as fine art prints for wall décor. His images are published regularly. Publishing clients have included *Country*, *Birds and Blooms*, *Birder's World*, *New Hampshire*, *NH Wildlife Journal*, *Yankee*, *The Concord Monitor*, and others. Both private and corporate clients use his imagery as wall décor, and he does nature-related product photography on a regular basis. Originally printing his work in his own color darkroom, he has printed digitally for over 10 years.

In NHPPA competition John has won numerous Courts of Honor, Judges Awards, Fuji Masterpiece Awards, and highest scoring prints. He has been honored twice as the NHPPA Photographer of the Year.
